

The Salvation Army HEAT RELIEF WATER DRIVE

Water Drive Dates: April 1 - August 31, 2024

It is getting to be that time of year again; Summer temperatures will be here before we know it! The Salvation Army is enlisting community partners to aid in our 2024 Heat Relief Water Drive efforts. This program supports the Extreme Heat Emergency Plan throughout the Valley of the Sun when high temperatures are severely dangerous.

The focus of this program is to collect cases of standardized 16.9 oz water bottles and provide hydration and safety information to anyone in need.

We all have the ability to make a positive impact on the lives of others. While one person may not be able to give much individually, together we can strengthen communities and simultaneously brighten lives in our community. Taking the time to communicate and accomplish our goals together not only benefits those in need but also brings a touch of care and compassion to our own lives. The Salvation Army offers many ways to get involved in our communities, including participating in our 2024 Heat Relief Water Drive.
